

If the guest is driving from Elizabeth Country House in Minerbio to Bologna, the safest and most convenient solution would be to choose a guarded parking facility just outside or at the edge of the city center, so that he avoids the risk of fines from the ZTL (Traffic Limited Zone). The trip takes about 30 minutes by car, and once he arrives near the center he can leave his car in a secure garage with video surveillance.

One of the most reliable choices, even from our perspective, would be **Piazza VIII Agosto underground parking (APCOA)**, located at **Via VIII Agosto 33, 40126 Bologna**. It is open 24 hours a day, entirely covered, and monitored by security cameras. It is perfectly located on the edge of the historic center, right next to Via Indipendenza, and outside the ZTL. Many visitors prefer this garage because of its easy access and the large number of available spaces.

Another good option is **Garage Excelsior**, located at **Viale Pietro Pietramellara 45, 40121 Bologna**, right in front of Bologna Centrale station. This garage is video-surveilled, guarded day and night, and known for its professionalism.

Close by, he can also find **Garage Masini**, at **Viale Angelo Masini 4, 40126 Bologna**. It is a covered garage with 24-hour video surveillance and staff assistance. Drivers appreciate it for its convenient location near the station and for the sense of security it may provide.

If the guest prefers a very large structure, he may opt for the **Parcheggio del Centro (Autostazione)**, located at **Viale Angelo Masini 8, 40126 Bologna**, directly under the bus station. It is open 24 hours, fully covered, with constant surveillance and easy pedestrian access into the center..

All of these parking facilities are covered or very well protected, video-surveilled, accessible without ZTL complications, and well reviewed by visitors for safety and convenience. From any of them you can reach the historic center of Bologna on foot in just a few minutes.
