### **ELIZABETH COUNTRY HOUSE**

Just outside Bologna, immersed in nature, in a territory rich in history, culture, and gastronomic traditions, we have chosen a beloved place with a long family tradition to recreate a place of the heart, where you can spend relaxing days just a stone's throw away from Bologna and Ferrara.

Elizabeth Country House consists of three villas, furnished in a skillful mix of Provençal style and early 20th-century Italian style. It is a true oasis of charm and relaxation equipped with all the main comforts. There is a large garden with a pool where you can practice yoga, read a book under a centuries-old tree, and enjoy good wine.

In the facility, there is also a vegetable garden to offer dishes made with locally sourced ingredients upon request. Regarding sustainability, the renovation included the installation of photovoltaic panels to enhance the energy efficiency of the structure.

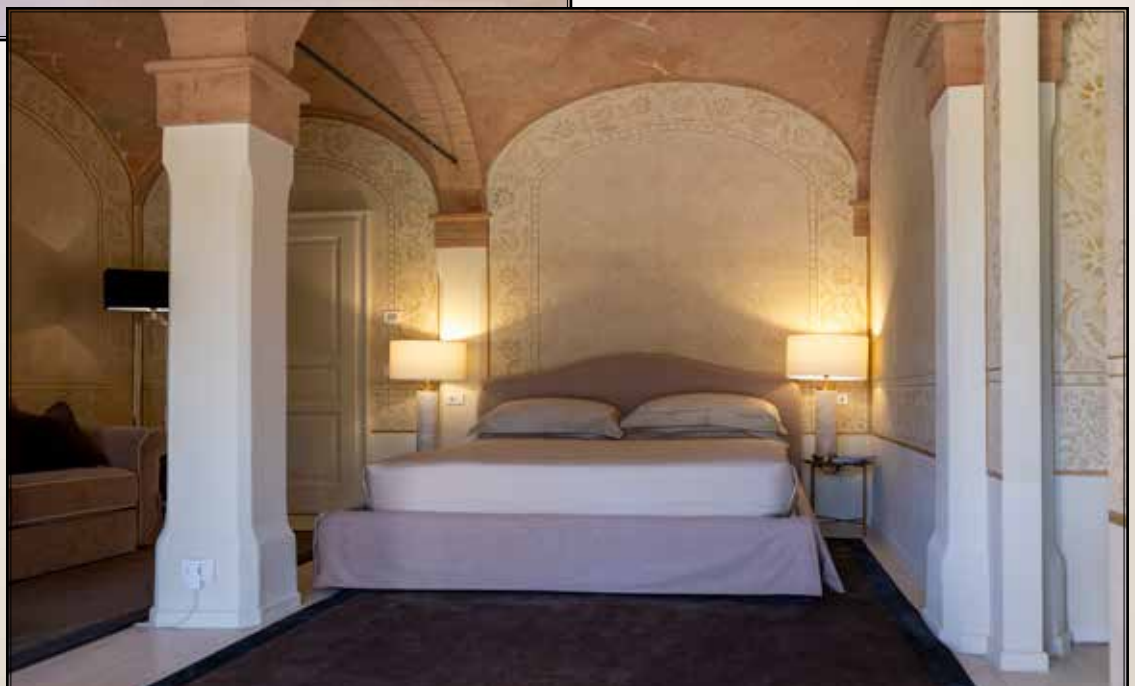

### **DISTANCES**

- Bologna city center - 22 km
- Bologna Airport - 25 km

## OUR PARTNERS

### Fabrizio Cocchi

#### Interior – designer

Fabrizio Cocchi, Creative Director of the FC Fabrizio Cocchi, was born in Bologna, where, at first, following his passion for beauty and for creating artistic “scenarios”, he opened a Flowers Shops’ Italian chain. His artistic compositions, sophisticated and spontaneous at the same time, become quickly a trend setter as they achieve the status of “objects of desire and of design”. It’s in New York that his life style (labelled FC.) develops, thanks to the inspirational time he spent in town and following his continuous quest for perfection. Fabrizio’s “touch” is evident throughout all of his collection and corresponds to his clients’ desire to create unique and glamorous settings, which testify of a way of living. As a consequence of an ever increasing demand from his public, he opened the Bologna and the Milan showrooms, where we enter his unique world and where we are invited to “feel” his vision; an emotional experience to be lived through the eyes, by looking at his sumptuous settings, while, at the same time, breathing the perfume of his scents.

Fabrizio Cocchi is well aware that today’s world is all connected and that no more boundaries exist while he embraces various different suggestions and ideas borrowed from the Far East as well as from Africa and India or from any culture which captures his eye with an element of beauty. At the same time, he treasures our western tradition of excellence, thus giving origin to a sophisticated, and precious style, powerful and simple at the same time, which is just his own.

### CERAMICHE MAGNOLIA MADE IN BOLOGNA

Our culinary offerings from the region will be served on handmade ceramics created by a local artist. We aim to provide a unique and immersive experience for our guests, who will also have the opportunity to purchase these one-of-a-kind pieces.

### Carmen Avilia

#### Restorer and decorator

For the restoration and decoration of the Palace, we wanted to entrust the expert hands and sensitivity of Carmen. Carmen developed her professionalism in Rio de Janeiro, working in the workshop of a renowned French decorator. She boasts international work experiences (Ecuador, Belgium, Switzerland, USA) for noble families, churches, and religious institutions. She specializes in the restoration and completion of Panoramic wallpapers.

### COSMETICA BOLOGNESE

#### Cosmetic courtesy line

#### MADE IN BOLOGNA

Elizabeth Country House offers a cosmetic courtesy line from a local producer, **Cosmetica Bolognese**. The products use natural and local ingredients and are treated with the utmost respect for the environment, preferring solid soap over liquid ingredients. **Cosmetica Bolognese** is a young family-run artisanal company based in the beautiful countryside of Bologna.

The company was born from the desire of its founder, Michele Zucchelli, who, after a pharmaceutical experience deemed very dangerous for health, decided to bring healthy products to his family. These products are designed and made within a relationship of trust, where there is awareness of the origin of the ingredients, their effectiveness, and their environmental impact.
