

Therasia Resort

sea & spa
Vulcano, Italy

Therasia 

On the island of Vulcano, surrounded by unspoiled nature and the horizon of the Mediterranean sea, lies Therasia Resort sea & spa. Set on a promontory overlooking the spectacular *faraglioni* of Lipari, the resort boasts enchantingly quiet surroundings and breathtaking views of the Aeolian Islands. Soft, light hues contrast with the black volcanic lavic stone, together with harmonious Mediterranean architecture united with elegant furnishings give a warm and welcoming atmosphere.

Relax in the splendid infinity pool with views of Lipari, or unwind with the energy of the hydro massage pools in the spa. The resort is also home to a Wellness centre offering a wide range of face and body treatments, helping you to relax and rejuvenate.

The resort's magnificent terraces with breathtaking views boast memorable sunsets accompanied with the sweet rhythm of live music.

Resort is open April through October.
